Investment strategy

The balanced version of our ESG Canadian portfolio.

This Balanced portfolio holds approximately 30% fixed income in the form of well-diversified actively managed ETFs with sustainable investment criteria. The 70% equity portion mirrors the ESG Canadian Leader portfolio. We combine our exclusive positive Environmental, Social and Corporate Governance (ESG) screening discipline to identify companies that exceed our high ESG standards. We also exclude unsustainable industries and companies with controversial practices to ensure you are invested in the best run companies.

We use a strict Environmental, Social and Corporate Governance (ESG) overlay to create the "Blue Heron Investable Universe". We then employ a disciplined active approach that combines qualitative and quantitative research. We also overlay Equity Action Call research to better control risk in volatile markets. Companies are added and deleted using a strict rules-based methodology.
