## Investment strategy

This all-equity portfolio is made up of Canadian “blue-chip” dividend paying stocks. The focus is long-term growth along with a target tax-efficient yield of about 4%. The tax efficient Dividend income makes this portfolio a great fit for accounts you’re taking cash flow from, and particularly non-registered and corporate accounts. We combine our exclusive positive Environmental, Social and Corporate Governance (ESG) screening discipline to identify companies that exceed our high ESG standards. We also exclude unsustainable industries and companies with controversial practices to ensure you are invested in the best run companies.

We use a strict Environmental, Social and Corporate Governance (ESG) overlay to create the "Blue Heron Investable Universe". We then employ a disciplined active approach that combines qualitative and quantitative research. We also overlay Equity Action Call research to better control risk in volatile markets. Companies are added and deleted using a strict rules-based methodology.
